Eliezer Alejandro Salas González

Senior Software Architect & Backend Engineer

Lima, Peru | +51 959 383 022 | esalas.facyt@gmail.com | linkedin.com/in/esalasfacyt

PROFESSIONAL SUMMARY

Senior software engineer with over 10 years of experience specializing in the design and development of microservices architectures and highly scalable backend systems. Expert in Java ecosystems, cloud service integration (AWS, Azure), and enterprise platforms for the financial and SaaS sectors. Recognized for leading technical initiatives, integrating conversational AI solutions, optimizing real-time data flows, and driving quality standards through agile methodologies and automated testing.

PROFESSIONAL EXPERIENCE

NTT DATA — Senior Java / AI Solutions Developer

2021 - Present, Lima, Peru

- AI & Conversational Agents Leadership: Architected and developed intelligent conversational agents focused on automated support and onboarding processes for top executives and new talent at Credicorp Capital, using Python and Microsoft Agent Framework.
- Led the design and development of a regional microservices architecture for Credicorp Capital, standardizing operations and deployments across Chile, Peru, Colombia, Panama, and the U.S.
- Automated critical business processes (massive client data synchronization, secure document encryption, and cloud service orchestration) using Java 11/17, Spring Boot, Azure APIM, and AKS under Azure DevOps pipelines.
- Designed and implemented an electronic invoicing microservice integrated with the DTE system of the Chilean Stock Exchange, automating the issuance and validation of fiscal documents to enhance operational efficiency.
- Spearheaded the development of the Loyalty BCP system for Banco de Crédito del Perú, integrating real-time data workflows using Azure Data Factory and Azure Functions to process consumption events and enable personalized loyalty programs.
- Coordinated cross-functionally with QA, infrastructure, and business teams for architecture definition, technology selection, and technical requirement gathering.

Soporte y Empoderamiento SAC — Java Developer

2020 - 2021, Lima, Peru

- Developed a system for sending personalized emails in bulk.
- Built microservices with Spring Boot and Java 8; AWS (SES, S3); PostgreSQL.

Support and Development SAC — Java Developer

2019 - 2020, Lima, Peru

- Developed a production planning and control system.
- Stack: Java 8, Spring Boot, AWS (S3, EC2), PostgreSQL, Thymeleaf.

SLUXNET C.A. — Java Developer

2015 - 2018, Valencia, Venezuela

- Developed a billing system for betting houses and migrated ERP for Ford Motors.
- Stack: Java 8, Swing, PostgreSQL, Tomcat.

EDUCATION

Bachelor of Computer Science — Universidad de Carabobo

TECHNICAL SKILLS

- **Languages & Frameworks:** Java (8, 11, 17), Python, Spring Boot, Spring Cloud, Spring WebFlux, Quarkus, Node.js, React, Thymeleaf.
- **AI & Architecture:** Microsoft Agent Framework, Multi-Agent Systems, Microservices, Event-Driven Architecture, REST APIs, TDD.
- **Cloud & DevOps:** Azure (APIM, AKS, Data Factory, Functions, Key Vault, Container Registry), AWS (Lambda, API Gateway, S3, EC2, SES, CloudFront), Docker, Azure DevOps, Git, Maven.
- **Databases:** PostgreSQL, SQL Server, MySQL, MongoDB, Redis, H2.
- **Tools:** Jira, Confluence.

LANGUAGES

Spanish (Native), English (Fluent)
